Thank you. That would be great. Do you have any idea on how many of the Region 5 chips will be used? I believe you guys have 35 total?

Hi Steven:

There is good chance that Region 5 will be taking samples form groundwater monitoring wells in July. I will let you know this week when in July this will occur.

Sincerely,

Subject: Phylochip

Hey guys, I wanted to check in and see if you had taken any samples yet for Phylochip? We are trying to get some samples from everyone so they can start performing some analysis.

Also, for samples I will need the sample ID and GPS coordinates so all the results can be loaded into the database.
